# Requirements Prior to Breeding

Bitches must be listed in Berner-Garde so we can calculate a COI. This is also an easy way for you to have her pedigree and all certifications on file. Before the bitch comes for a breeding she must have negative Brucellosis results performed within a month of the breeding. (It can take a week to get results back from your vet.)

Hip and Elbow Certifications REQUIRED; Eye, Heart, DM (exon 1-2), and vWD (if available) should be provided as part of the application process. She must have current vaccinations, including the Bordetella Vaccination (Kennel Cough).

\*Progesterone tracking is required to ensure perfect timing for the breeding.\*

**Stud Service Contract**

Stud owner: Kimberly May

Stud/AKC#:

Stud Certifications:

Berner Garde #:

Dam owner/ Contact information:

Dam/AKC#:

Dam certifications:

Berner Garde #:

Dates bred:

Type of breeding: natural, AI vaginal, Mavic, TCI, surgical

Conditions:

1. Stud Fee is \$2000.00 or first choice puppy (if agreed upon by both parties).
2. All fees are for stud service only and not to be construed as a guarantee of puppies. A successful litter is production of any number of puppies. If the bitch fails to welp, dam owner shall notify stud owner no more than 65 days past first mating. There shall be no refund in part or whole, but return stud service will be provided.
3. In case of AI breeding, all costs are Dam owner's responsibility.
4. If the Dam is to be boarded by stud owner, all responsible care will be provided, and the bitch will be kept inaccessible to other male dogs.
5. If the bitch develops any illness or requires medical attention during the time with stud owner, the owner of the bitch will be contacted immediately. In the case of a medical emergency, stud owner will transport bitch to closest vet. All medical expenses will be born by the owner of the Dam.
6. Negative Brucellosis (within the last month) must be provided before Dam arrives at stud owner.
